Dear Mr. Anderson:

Subject: Great Salt Lake Mineral Concentrates - DOGM No. S/003/037

We have reviewed a copy of your Notice of Intention to Commence Small Mining Operations. We have received a copy of the notice from the Division of Oil, Gas and Mining on November 20, 1995.

This project is for concentrating brine from the Great Salt Lake using an evaporation pond in Box Elder County.

It does not appear that the operation, as described, will have any water quality impacts. At this time, no permit is required from this office for the stated activities. However, you must advise us for review of water quality impacts, if your activities generate waste water which would be discharged to the ground or surface waters of the State.

If we can be of further assistance, please contact me or Mr. Lyle Stott of my staff.

Sincerely,

Kiran L. Bhayani, P.E., D.EE.  
Manager, Design Evaluation Section
